

Instagram framed prints

Short description: Framed multi photo prints – delivered ready to hang

Long description: Our Instagram framed prints are a cost-effective way to create gallery-style wall art using your customers' favourite images. Each piece pairs our classic wooden frame with a lustre photo print for rich colour and crisp detail, finished with float glass glazing for a clean, premium look.

Available in two square sizes – 12x12" and 16x16" – every frame is supplied with a white or black mount, backing board and everything needed for a professional finish. They're ideal for single images or photo montages featuring 1, 4, 9, 16 or even 25 images, making them a highly giftable option for capturing special moments.

Please note: the size listed for each picture frame refers to the size of the glaze and does not include the width of the picture frame. For example, A4 prints without a mount will fit an A4 glaze exactly, but prints with a mount will be smaller than A4 to fit the mount window opening.
